Milwaukee Refugee Research Collaborative

Principles of Partnership

    i. Educate yourself about service provision;

    ii. Identify gaps in knowledge for yourself and seek out ways to fill them;

    iii. Ensure that adequate and neutral interpretation services are used;

    iv. Be aware of the resource constraints on service providers; and

    v. Spend time at service provider's offices and at community events – dedicate time to becoming familiar with the community that is the focus of your research.
